COMPARATIVE ANALYSIS OF PROGRESS

61 Years of Impact

The mean value of orphans taken-in during other presidencies (1964 - 1982) was 166 babies. During the hiatus (1983 - 2018), the mean number of babies taken in dropped to 2 babies. During Hajiya Rabi Saulawa's presidency, the mean value of babies taken in by JMA increased by 8 babies.

98% of the babies catered to and given up for adoption were done outside of her presidency.

The mean value of women who benefitted from JMA under other presidency is 267. During the hiatus, the association did not carry out campaigns or register members. The orphanage continued to function along side its Premier school. The mean value of women that has benefitted from JMA Under the current presidency is 343.

Rabi's leadership secured funding for loans during Sterling Bank's Customer Service event, providing loans for women in local communities. She also provided palliatives and orientation to women during the Covid 19 crisis.

While previous presidency had a culminative impact of 43% women and 57% orphaned babies, her current leadership has an overwhelming 98% support for women with orphaned babies falling under 2%.

This difference can be as a result of the change in adoption laws in the state (Kaduna), birth rate or the news of the resusitation of the association and the head quarters not having been spread to a large enough audience.
